Meme-based Kia ad campaign gets facepalm from Cheezburger users

Cheezburger—the company behind LOLCats—lent its meme-based branding to Kia for an ad campaign, but Cheezburger fans don't find it very “funneh.”

John Otter is starring in his own Christmas special this year, but you have to help us come up with the plot. What do you think? 😊

Merry Christmas from our family to yours!

Context Matters – When Humor Backfires

- Most self-inflicted social media crises come from inappropriate attempts at humor.
- Know your audience, know the situation, “read the room.”
- Ask someone you trust about potentially sensitive topics.
- Avoid controversial topics.

How to Vet a Joke BEFORE You Post

- **Peer review** – ask others what they think, especially if the joke has to do with a particular audience and you can access members of that audience
- **Run it by HR/Legal** –you may have to advocate for humor because they will want to say no
- **Soft launch/test** on Stories or smaller stakes channels.

Finding Your Brand's Sense of Humor

- Know your audience.
- Align humor with brand values.
- Develop your unique tone... Are you quirky, irreverent, silly?
- Be consistent (but not necessarily identical) across platforms.
- A/B test, gather feedback.

Using Memes

- Great filler content.
- Demonstrates sense of humor.
- Can playfully engage audience.
- Know your audience and know your memes!

What is a Meme?

- Meme =
unit of cultural information
spread by imitation.
- The term was coined in 1976
by British evolutionary
biologist Richard Dawkins.
- From the Greek *mimema*,
meaning “imitated”

What is a Meme?

In digital marketing...

- Humorous content that is copied and spread rapidly by internet users, often with slight variations.
- Typically convey a cultural idea, trend, or behavior in a funny or relatable way.

See a good meme that made you laugh, but it doesn't really apply to your audience?

Chronologically it is more accurate to depict a T-Rex on a unicycle than to depict one fighting a Stegosaurus.
